HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title		Division	Chapter	Rule
3	CSR	10-	4	.115
Department	<i>Code of State Regulations</i>	Agency Division	General area regulated	Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) business days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

Title 20—DEPARTMENT OF COMMERCE AND INSURANCE

Division 2220—State Board of Pharmacy Chapter 2—General Rules

EMERGENCY RULE

20 CSR 2220-2.995 Board Approved Pilot and Research Projects

PURPOSE: This rule establishes application requirements and criteria for pilot projects authorized by section 338.143, RSMo.

EMERGENCY STATEMENT: Section 338.143, RSMo, was enacted in 2019 which granted the board authority to approve and establish requirements for pharmacy pilot or demonstration research projects related to technology assisted verification or remote medication dispensing that are designed to enhance patient care or safety, improve patient outcomes, or expand access to pharmacy services. Pursuant to section 338.143.4, RSMo, the board is required to submit a report to the General Assembly on related data or findings on or before December 31, 2022. The proposed emergency rule would establish requirements and criteria for potential pilot and demonstration projects to ensure patient safety and appropriate oversight. An early effective date is needed to allow potential participants to establish, apply for, operate, analyze, and report on research findings in sufficient time to allow the board to provide the legislatively mandated report by December 31, 2022. As a result, the Missouri State Board of Pharmacy finds the proposed rule is necessary to preserve a com-

elling governmental interest in that an early rule effective date is required to comply with the General Assembly's mandate to implement and report on project findings prior to December 31, 2022. Absent emergency action, the board and approved participants will be unable to meet the legislatively required deadlines prior to statutory expiration. A proposed rule which covers the same material is published in this issue of the Missouri Register. The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The Missouri State Board of Pharmacy believes this emergency rule is fair to all interested persons and parties under the circumstances. This emergency rule was filed September 13, 2019, becomes effective September 27, 2019, and expires March 24, 2020.

(1) This rule establishes requirements for the approval and operation of pharmacy pilot or demonstration research projects related to technology assisted verification or remote medication dispensing that are designed to enhance patient care or safety, improve patient outcomes, or expand access to pharmacy services, as authorized by section 338.143, RSMo.

(2) Applicants to operate a pilot program pursuant to this rule shall file an application on a form provided by the board. To be eligible, the applicant must hold a current and active license, registration, or permit from the board that is not under discipline.

(3) Proposal Requirements. Proposed pilot projects must be submitted to the board in writing and include-

(A) A one (1) page abstract of the project that includes the project's goals, purpose, scope, and proposed timelines;

(B) A narrative description of the following:

1. Activities that will be undertaken as part of the pilot project, including, the intended audience;

2. The goals and objectives of the project. Services and anticipated outcomes must be clearly described and align with section 338.143, RSMo;

3. A description of the capacity and structure the institution has in place to operate the proposed pilot program, including, staff and personnel who will be monitoring, supervising or participating in the pilot project and their relevant education, experience, or qualifications;

4. Procedures for training staff on project operations;

5. An explanation of how the proposal will enhance patient care or safety, improve patient outcomes, or expand access to pharmacy services for Missouri citizens;

6. A projected timeline for implementation and completion of the proposed pilot project. The proposed pilot project must be eligible for completion within eighteen (18) months of approval, unless otherwise authorized by the board;

7. Evaluation measures for assessing impact and effectiveness; and

8. A plan for pilot project termination.

(4) Pilot Projects shall be awarded at the discretion of the board with due consideration to public protection, patient safety, feasibility, the needs of the state, and the impact on pharmacy practice. Approved pilot projects shall report on program activities, as requested by the board. Approval of a pilot project may be withdrawn or rescinded by the board for the following:

(A) Any grounds authorized for discipline under section 338.055.2, RSMo;

(B) Failure to report on project operations, as requested by the board;

(C) To prevent or avoid patient harm or undue patient risk;

(D) To protect the public health, safety, or welfare; or

(E) Exceeding/Failure to comply with approved project guidelines. Deviations from approved pilot project operations must be reported to the board within five (5) business days.

*AUTHORITY: sections 338.140 and 338.143, RSMo Supp. 2019. Emergency rule filed Sept. 13, 2019, effective Sept. 27, 2019, expires March 24, 2020. A proposed rule covering this same material is published in this issue of the **Missouri Register**.*

PUBLIC COST: This emergency rule will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the time the emergency is effective.

PRIVATE COST: This emergency rule will cost private entities three thousand thirty-two dollars (\$3,032) in the time the emergency is effective.

Type of Rulemaking:	Emergency Rule

II. SUMMARY OF FISCAL IMPACT

Estimate of the number of entities by class which would likely be affected by the adoption of the rule:	Classification by types of the business entities which would likely be affected:	Estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
10	Entities applying to operate a pilot or research project pursuant to § 338.143	\$ 3,032 <i>(in the time the emergency is effective)</i>

III. ASSUMPTIONS/WORKSHEETS

The following general estimations were used to calculate private fiscal costs:

1. Section 338.143, RSMo, authorizes the Board to approve pilot or demonstration research projects to enhance patient safety, increase patient outcomes, or expand access to pharmacy services. Based on communication with other states and potential project operators, the Board estimates approximately ten (10) entities may apply to operate a pilot or demonstration research project authorized by section 338.143.
2. Participation in a pilot/demonstration research project is voluntary and project parameters would be established by approved participants. However, the Board estimates it will take a pharmacist/researcher approximately five (5) hours to complete the descriptive narrative required to apply for Board approval.
3. An hourly pharmacist/researcher salary of \$ 60.64 was estimated based on data reflected in the currently available United States Department of Labor, Bureau of Labor Statistics Occupational Outlook Handbook. As a result, the Board estimates a total cost of \$ 3,032 over the life of the rule (10 applicants x \$60.64 pharmacist hourly wage x 5 hours per descriptive narrative preparation).

The Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo.

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

Division Title: State Board of Pharmacy
Chapter Title: General Rules

Rule Number and Title:	20 CSR 2220-2.995 Board Approved Pilot and Research Projects
Type of Rulemaking:	Proposed Rule

II. SUMMARY OF FISCAL IMPACT

Estimate of the number of entities by class which would likely be affected by the adoption of the rule:	Classification by types of the business entities which would likely be affected:	Estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
10	Entities applying to operate a pilot or research project pursuant to § 338.143	\$ 3,032 <i>(recurring over the life of the rule)</i>

III. ASSUMPTIONS/WORKSHEETS

The following general estimations were used to calculate private fiscal costs:

1. Section 338.143, RSMo, authorizes the Board to approve pilot or demonstration research projects to enhance patient safety, increase patient outcomes, or expand access to pharmacy services. Based on communication with other states and potential project operators, the Board estimates approximately ten (10) entities may apply to operate a pilot or demonstration research project authorized by section 338.143.
2. Participation in a pilot/demonstration research project is voluntary and project parameters would be established by approved participants. However, the Board estimates it will take a pharmacist/researcher approximately five (5) hours to complete the descriptive narrative required to apply for Board approval.
3. An hourly pharmacist/researcher salary of \$ 60.64 was estimated based on data reflected in the currently available United States Department of Labor, Bureau of Labor Statistics Occupational Outlook Handbook. As a result, the Board estimates a total cost of \$ 3,032 over the life of the rule (10 applicants x \$60.64 pharmacist hourly wage x 5 hours per descriptive narrative preparation).

RESPONSE AND EXPLANATION OF CHANGE: The department agrees these wording changes are necessary to be consistent with language used in other department CSRs and internal policies and procedures. The language in the rule has been changed.

COMMENT #2: A staff member indicated that “intake evaluation” should be changed to “eligibility determination” and “comprehensive” should be added before “assessment” in subsection (7)(A).

RESPONSE AND EXPLANATION OF CHANGE: The department agrees these wording changes are necessary to be consistent with language used in other department CSRs and internal policies and procedures. The language in the rule has been changed.

9 CSR 30-4.005 Eligibility Criteria and Admission Criteria for Community Psychiatric Rehabilitation Programs

(6) Eligibility criteria for admission to a CPR program shall include:
(A) Disability—there is clear evidence of serious and/or substantial impairment in the individual's ability to function at an age or developmentally appropriate level due to serious psychiatric disorder in each of the following two (2) areas of behavioral functioning as indicated by the eligibility determination and comprehensive assessment:

1. Social role functioning/family life—the ability to sustain functionally the role of a worker, student, homemaker, family member, or a combination of these; and

2. Daily living skills/self-care skills—the ability to engage in personal care (such as grooming, personal hygiene) and community living (handling individual finances, using community resources, performing household chores), learning ability/self-direction and activities appropriate to the individual's age, developmental level, and social role functioning.

(B) Diagnosis—a licensed diagnostician certifies a primary diagnosis based on the *Diagnostic and Statistical Manual of Mental Disorders Fifth Edition (DSM-5)* published by and available from the American Psychiatric Association, 1000 Wilson Boulevard, Suite 1825, Arlington, VA 22209-3901 or the *International Classification of Diseases Tenth Revision (ICD-10)* published by and available from the World Health Organization, 525 23rd Street N.W., Washington, DC 20037. The diagnosis may coexist with other psychiatric diagnoses. Specific diagnoses for eligibility can be found in the *MO HealthNet CPR Provider Manual* published by and available from the Missouri Department of Social Services, 615 Howerton Court, PO Box 6500, Jefferson City, MO 65102-6500. The referenced documents do not include any later revisions or updates.

(C) Duration—rehabilitation services shall be provided for individuals whose mental illness is of sufficient duration as evidenced by one (1) or more of the following:

1. Received psychiatric treatment more intensive than outpatient more than once in a lifetime (crisis services, alternative home care, partial hospital, inpatient);

2. Experienced an occurrence of continuous residential care, other than hospitalization, for a period long enough to disrupt the normal living situation;

3. Exhibited the psychiatric disability for one (1) year or more; or

4. Treatment of the psychiatric disorder has been or will be required for longer than six (6) months.

(D) For adults and children age six (6) and above a functional assessment may be used to establish eligibility for CPR services, including results from a standardized assessment prescribed by the department.

(E) Individuals currently enrolled in a CPR program for youth are automatically eligible for admission to an adult CPR program when the transfer is determined to be clinically appropriate and documented in the record.

(7) Children and youth under the age of eighteen (18) may be provisionally admitted to a CPR program based on the following:

(A) Disability—there is clear evidence of serious and/or substantial impairment in the child's ability to function at an age or developmentally appropriate level due to serious psychiatric disorder in each of the following two (2) areas of behavioral functioning as indicated by the eligibility determination and comprehensive assessment:

1. Social role functioning/family life—the child is at risk of out-of-home or out-of-school placement; and

2. Daily living skills/self-care skills—the child is unable to engage in personal care, such as grooming and personal hygiene, and in community living such as performing school work or household chores, learning, self-direction or activities appropriate to the individual's age, developmental level, and social role functioning.

(B) Diagnosis—if a child is exhibiting behaviors or symptoms consistent with a non-established CPR eligible diagnosis, he/she may be provisionally admitted for further evaluation. There may be insufficient clinical information because of rapidly changing developmental needs to determine if a CPR diagnosis is appropriate without an opportunity to observe and evaluate the child's behavior, mood, and functional status. In such cases documentation must clearly support the individual's level of functioning based on disability as defined in paragraph (A) of this rule.

(C) Duration—there must be documented evidence of the child's functional disability as defined in subsection (A) of this section for a period of ninety (90) days prior to provisional admission.

(D) Provisional admission shall not exceed ninety (90) days. Immediately upon completion of the ninety (90) days, or sooner if the individual has been determined to have an eligible diagnosis as indicated in subsection (A) of this section, the diagnosis must be documented and he/she may continue to receive services in the program.

(E) If a child who was provisionally admitted is determined to be ineligible for CPR services, staff shall directly assist the individual and/or family in arranging follow-up services needed. Arrangements for follow-up services must be documented in the discharge summary.

(F) All admission documentation is required for those provisionally admitted with the exception of the comprehensive assessment which may be deferred for ninety (90) days.
